Test Report of Urine Morphological Analysis

Pet Name: Map

Case No.:

Test Time: 2025-12-01 18:12

Clinical Significance

1. [Yellow] Common in normal urine samples.
2. [GRA#>0] Commonly seen in accelerated tubular degeneration, acute renal failure, glomerular disease, and damage from drugs or toxins.
3. [MAP#>0.3] Indicates urinary tract infection and potential stone formation; common in bacterial infections, low urine volume, alkaline urine, or high dietary magnesium.
4. [BAC#>0] Possible bacilli overgrowth or urinary tract infection. Due to potential interference (e.g., amorphous crystals), result is for reference only. Culture is advised for confirmation.
